

## TABLE OF CONTENTS

	<b>PAGE</b>
<b>EXECUTIVE SUMMARY</b>	1
<b>DEFINITIONS</b>	4
1.0 <b>INTRODUCTION</b>	7
2.0 <b>DESCRIPTION OF RESOURCE</b>	8
2.1           Corals	8
2.1.1        Class Hydrozoa	8
2.1.2        Class Anthozoa	9
2.1.2.1      Antipatharian anthozoans	9
2.1.2.2      Octocorallian anthozoans	9
2.1.2.3      Actinarian anthozoans	10
2.1.2.4      Scleractinian anthozoans	10
2.2           Live-Rock	13
2.2.1        Rubble-Rock	14
2.2.2        Algae-Rock	14
2.2.3        False-Coral	14
2.2.4        Sea-Mat	15
2.3           Invertebrates Associated with Reef and Coral Reefs	17
2.3.1        Porifera	17
2.3.2        Annelida	17
2.3.3        Mollusca	17
2.3.4        Arthropoda	19
2.3.5        Echinodermata	19
2.3.6        Bryozoa and Chordata	20
2.4           Marine Algae and Flowering Plants	21
2.5           Ecological Relationships	23
2.6           Fishery Management Unit	26
2.7           Distribution of Species in the Fishery Management Unit	26
2.8           Present Condition of Components of the FMU	30
2.8.1        Natural stressors	30
2.8.2        Anthropogenic stressors	31
2.8.2.1      Reefs	31
2.8.2.2      Seagrasses	36
2.9           Probable Condition of Habitat in the Future	37
3.0 <b>DESCRIPTION OF FISHERY</b>	38
3.1           History of Exploitation	38
3.2           Current Commercial Use	39
3.3           Current Recreational Use	41
3.4           Research and Medicine	43
3.5           Science and Education	44
3.6           User Conflicts	44
3.7           Landings and Value Information	44
3.8           Vessels, Gear, Employment and Marketing	45
3.9           International Activities	47

4.0	<b>CAPACITY LIMITS</b>	47
5.0	<b>PROBLEMS IN THE FISHERY</b>	48
5.1	Overfishing	48
5.1.1	Stony Corals, Octocorals, Live-Rock and Seagrasses	48
5.1.2	Other Reef-associated Invertebrates	49
5.2	Lack of Management	49
5.3	Lack of Effective Environmental Policies/ Enforcement	50
5.4	Inappropriate Harvest Techniques and Holding Facilities	51
5.5	Inadequate Information Base	51
5.6	Limited Public Information/Education	52
5.7	Habitat Loss and Degradation	52
5.8	User Conflicts	52
6.0	<b>MANAGEMENT OBJECTIVES</b>	53
7.0	<b>MANAGEMENT PROGRAM</b>	54
7.1	Management Measures Proposed	54
7.1.1	Management Measure 1	54
7.1.2	Management Measure 2	55
7.1.3	Management Measure 3	57
7.1.4	Management Measure 4	58
7.1.5	Management Measure 5	59
7.1.6	Management Measure 6	61
7.1.7	Management Measure 7	61
7.1.8	Management Measure 8 (RESERVED)	62
7.2	Procedure for Adjusting Management Measures	62
7.3	Future Management Considerations	63
7.3.1	Marine Conservation Districts	64
7.3.2	Quotas, Limited Entry and Harvest Prohibitions	65
7.3.3	Handling and Transportation of Live Organisms	66
7.3.4	Introduction of Exotic Marine Organisms	67
7.4	Data Collection and Research Requirement	67
7.5	Special Recommendations and Endorsement of State Actions	68
7.5.1	Recommendations	68
7.5.2	Endorsement	69
7.6	Public Education and Awareness	70
7.7	International Considerations	70
8.0	<b>RELATED MANAGEMENT JURISDICTIONS, LAWS AND POLICIES</b>	71
8.1	Federal Laws, Policies and Regulations	71
8.2	Local Laws, Policies and Regulations	74
8.3	Management Institutions	77
8.3.1	Federal Management Institutions	77
8.3.2	State Management Institutions	80
8.4	International Treaties and Agreements	80

9.0	<b>OTHER APPLICABLE LAWS AND REQUIREMENTS</b>	81
9.1	Effect on Wetlands	81
9.2	Vessel Safety	81
9.3	Paperwork Reduction Act	81
9.3.1	Proposed Data Collection Program	82
9.3.2	Estimate of Reporting Burden and Cost	82
9.3.3	Coastal Zone Management Consistency	82
9.3.4	Federalism	82
9.3.5	Social Impact Assessment	83
10.0	<b>MAJOR ISSUES DISCUSSED AT PUBLIC HEARINGS</b>	83
11.0	<b>REFERENCES</b>	84

**LIST OF TABLES AND FIGURES**

Table 1	Species in the Fishery Management Unit	93
Table 2	Reported numbers of individuals of invertebrates exported from Puerto Rico	99
Table 3	Reported numbers of boxes of marine fish and invertebrates exported from Puerto Rico	101
Figure 1	Distribution of substrate type by coast and by depth	102
Figure 2	Distribution of live and submerged reefs on the insular shelf, Isla Caja de Muertos area, southern Puerto Rico	103
Figure 3	Live invertebrates exported from Puerto Rico: 1990-1992	104
Figure 4	Proposed MCDs for Puerto Rico	105
Figure 5	Proposed MCD for St. Croix, U.S.V.I.	106
<b>APPENDIX A:</b>	Species excluded from the FMU	107
<b>APPENDIX 1:</b>	The state of Puerto Rico and U. S. Virgin Island corals	
<b>APPENDIX 2:</b>	A preliminary assessment of marine aquarium organisms	
<b>APPENDIX 3:</b>	Regulatory Impact Review	
<b>APPENDIX 4:</b>	Final Environmental Impact Statement
